Here are just a few of the many features available with Jamf.

Set Up

Set up

Configure settings like Wi-Fi and email on all of your devices quickly and consistently.

Manage

Manage

Centrally deploy apps over the air and reassign licenses as your workforce changes.

Protect

Protect

Secure your sensitive data, enforce passcodes and remotely lock/wipe devices.

Inventory

Self Service

Empower end-users by making resources available on-demand with a custom app catalog.

"Best in Class"

"There's a reason it has become the industry standard for Apple device management. Support from Jamf and from the Jamf Nation community is second to none. I know if I have a problem I can turn to Jamf Support or Jamf Nation for help finding a solution."

– Arthur S.
