DiskAid is now iMazing

iMazing is made by the same passionate team behind every release of DiskAid since 2008. Over the years, DiskAid evolved to become an iOS management powerhouse, and we felt that the name was not appropriate anymore. Same company, same people, working just as hard as ever to bring you the best software we can - simply iMazing! **All features that were free in DiskAid are still free in iMazing and more.**
